

13. Search like a Pro-1

We all search!

We use google or Bing or Yahoo or whatever!

I find many of us are just scratching the surface.

Actually you can do wonders in search!

This is what we are going to learn here in this series.

Have you ever noticed the 'Show options' option on the left side when you search Google for anything?

Do you know how fantastic it is?

Will give you one example.

- Do a google search on "Fraud"
- Then click on **Show options**.
- A whole new world opens up now!
- Go to **Time line** and click on that.
- Imagine when I found timeline from 1720- 2010!
- Isn't that a real wow?
- So you can check on what is as old as 1720 in frauds!
- Click on **Books** -you will get a whole list of them.
- Next click on **Shopping** -you will be asked to enter from Rs --- to Rs ----!
- If you click on videos it asks you do you want videos:
 - 0-4 mins
 - 4-20 mins etc.

It is so cool you can spend hours.

It is supposed to be constantly evolving.

I heard about the google '**wonder wheel**' which gives a wheel which you can keep clicking and it extends to branches and into other things like branches. It looks very cool- but right now not included in options.

Amazing tool to help in searches.
Try it out.
